

CAPABILITY STATEMENT

Global Security · Criminal Justice · Operational Advisory

Hive International is a globally engaged operational advisory firm supporting criminal justice, investigations, intelligence, digital forensics, border security, and public-safety modernization. We deliver embedded, field-tested capability that builds trusted ecosystems of practitioners across borders.

CORE COMPETENCIES

- Criminal justice advisory & capacity-building
- Digital forensics & lab modernization
- Intelligence-led border security & targeting
- Customs & trade enforcement advisory
- Multi-jurisdictional investigations support
- Training delivery & practitioner development

DIFFERENTIATORS

- Embedded advisors with operational, field-tested experience
- Interconnected network model spanning jurisdictions
- Outcomes measured against mission impact, not deliverables alone
- Trusted relationships across global criminal-justice partners

[KEY RESULT]

[00]

[KEY RESULT]

THE CHALLENGE

[Describe the operational problem the client faced — the mission context, the gap, and the stakes. Keep it specific and credible. Hive's voice is direct and proof-oriented.]

THE APPROACH

[Explain how Hive embedded advisors and applied its network model. Reference the capability domains and methods used.]

- [Action / workstream one]
- [Action / workstream two]
- [Action / workstream three]

THE OUTCOME

[State the measurable results and lasting capability built. Tie back to the mission. End on the durable impact for the client and their partners.]

"[Client testimonial — a short, attributable quote on the impact of the engagement.]"

ASSESSMENT REPORT · [REPORT NO.]

RECOMMENDATIONS

1. [Prioritized, actionable recommendation tied to a finding.]
2. [Second recommendation with owner and timeframe where possible.]
3. [Third recommendation.]

WHITE PAPER

[THE PAPER TITLE — A CLEAR POSITION ON A MISSION PROBLEM]

[Subtitle / one-line framing of the argument and who it is for.]

[Author Name], [Title]

Hive International, LLC · [Month YYYY]

ADVISORY DEPTH. OPERATIONAL RESULTS.

ABSTRACT

[A 3–4 sentence summary of the paper's thesis and conclusion for time-pressed readers.]

KEY POINTS

- [Point one]
- [Point two]
- [Point three]

1. INTRODUCTION

[Open with the mission context and the problem this paper addresses. Hive writes with executive authority — direct, specific to criminal-justice and public-safety contexts, and grounded in operational reality.]

[Continue the framing. Establish why the status quo is insufficient and what is at stake for partner agencies.]

2. THE ARGUMENT

[Develop the core position with evidence and field experience. Use measured, proof-backed language.]

[A pull quote that crystallizes the paper's central claim.]

[Supporting analysis and implications for capability development and operational partnership.]

3. CONCLUSION

[Restate the position and the recommended path forward. End on durable operational impact.]

[Agency / Organization]

[Address]

Dear [Recipient],

[Opening paragraph — state the purpose of the letter clearly and directly. Hive's voice is executive, mission-oriented, and operationally fluent. Lead with the outcome or request.]

[Body paragraph — supporting detail, proof points, and measurable outcomes. Reference specific capability domains, contract vehicles, or past performance as relevant.]

[Closing paragraph — restate the next step and how to proceed.]

Respectfully,

02

SECTION TWO

OPERATIONAL CAPABILITIES

Embedded advisory support across criminal justice, digital forensics, border security, and intelligence modernization.

HIVE

THE MISSION CONTEXT

WHY IT MATTERS

Transnational criminal networks operate collaboratively across borders, outpacing siloed responses.

Partner agencies need field-tested capability, not theory — delivered where missions happen.

IN BRIEF

Operationally embedded advisory support for complex global security missions — disciplined expertise, trusted field relationships, and practical execution in high-consequence environments.

Hive's interconnected network model builds trusted ecosystems of practitioners.
